To determine if PP is adjective or adverb:

1. Check to see if there is a noun in front of PP
2. If **NO**, then **PP is adverb** (answers one of the adverb questions)
3. If **YES**, then **check** to see if it is **ADJECTIVE** first (does it answer an adjective question about the noun?)
4. If you cannot force an adjective question to work, then the PP is adverb (verify that it does answer an adverb question).

The boy walked on the mountain.

The house on the mountain is a log cabin.

We rode our bikes on the mountain road.
